INFORMATION DISCLOSURE STATEMENT  
UNDER 37 C.F.R. 1.97(b)

Assistant Commissioner for Patents  
Washington, D.C. 20231

Sir:

In compliance with the duty of disclosure set forth in  
37 C.F.R. 1.56, applicant is filing this Information Disclosure  
Statement and the accompanying form PTO-1449 along with copies of  
the prior art therein identified. So far as applicant is aware,  
this Information Disclosure Statement is being filed before the  
mailing date of the first Office Action on the merits.

Japanese published application 8-294030 describes a video camera integrated with a portable telephone. The camera housing 20 is connected to the phone body 2 and is rotatable (arrow 29 in figure 1). When a user of the video camera uses the phone to communicate with others, the camera lens is obscured in body 2 because of its rotation, and power to the camera is automatically shut off. On the other hand, when the user wishes to take a picture; the lens is rotated from the inside of the body to a viewable position (from Fig. 5 to Fig. 1) and power is automatically supplied.

There is no suggestion that an image signal is adjusted as a function of the direction of rotation of the camera lens so as not to display the image upside down.

The filing of this Information Disclosure Statement is not an admission that the document identified herein constitutes prior art to the present application.

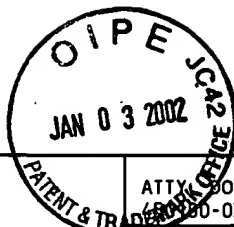

Please charge any fees incurred by the filing of this document or credit any overpayment to Deposit Account No. 50-0320.

Respectfully submitted,

FROMMER LAWRENCE & HAUG LLP  
Attorneys for Applicant
